MAY: Growing Self

Universal Month 14/5 Shifts, Open to Change,

Energy Description: May's energy is about transforming deep emotions. It is shifting the energy out of the constriction of the heart and asking it to move to love, to Universal Love. Growth is from transmuting the deafness, made by the mental mind, into yielding insights that are felt and given to the heart.

Contemplation: This contemplation is to help you transmute the deafness. Whenever you feel angry, frustrated, disempowered or indifferent, take 3 deep breaths. Then ask for the gift of Insight; give yourself time to receive it; and then allow yourself to receive the energy of your love for yourself.

Astrological Guidance:

- **Empowered Insight - May 12 Scorpio Full Moon:** The Moon is in Scorpio (transforming deep emotions) through Gene Key #43.4 Epiphany, Insight, Deafness, and the Sun is in Taurus (what the ego values) in Gene Key - #23.4 Quintessence, Simplicity, Complexity. We have 2 fingers of God pointing to the Moon and Chiron in Gene Key #42.5 Celebration, Detachment, Expectation. This full moon is asking you to use the gift of insight and expand your gift of discrimination and simplicity so you can heal conflicts, receive peace and celebrate life.
- **Start Universal Love - May 24 Saturn enters Aries:** Saturn is in Aries (law enforcer starts) Gene Key #25.2 Universal Love, Acceptance, Constriction. It is initiating the law to listen to universal love and acceptance so you can release the constrictions of the heart.
- **Universal Love - May 25 - August 31 Saturn nearly conjunct Neptune:** Saturn (law enforcer) and Neptune (dreams) are in Gene Key #25.3 Universal Love, Acceptance, Constriction. This is about enforcing gently the dreams that are rooted in universal love. It is turning the light keys to open the door to acceptance so you can live the life of your dreams.
